

LEVO C³

NEW!

Power Elevating Legrests
Power Reclining Backrest

LEVO C³

We are LEVO: Known as the Experts in Standing for over 40 years, LEVO is becoming a leader in wheelchair power seating functions as well. We are proud to introduce two outstanding new power seating options for the LEVO C3.

- Our new *Power Elevating Legrests* can operate simultaneously, or, independently to raise and lower the legrests separately to desired levels. Both elevating and articulating, they provide leg extension as they rise, resulting in minimum knee flexion.

- The new *Power Reclining Backrest* incorporates smooth recline articulation that greatly minimizes shear. This feature, combined with the *Power Tilt-in-Space* option, allows you to autonomously control weight distribution through simple manipulation of the joystick.

By now offering power *Standing/Tilt/Recline and Elevating Legrests*, the C3 delivers maximum function, comfort and pressure relief.

LEVO: Simple – Straight – Standing
