Gel Ovations™ FULL CLEARANCE

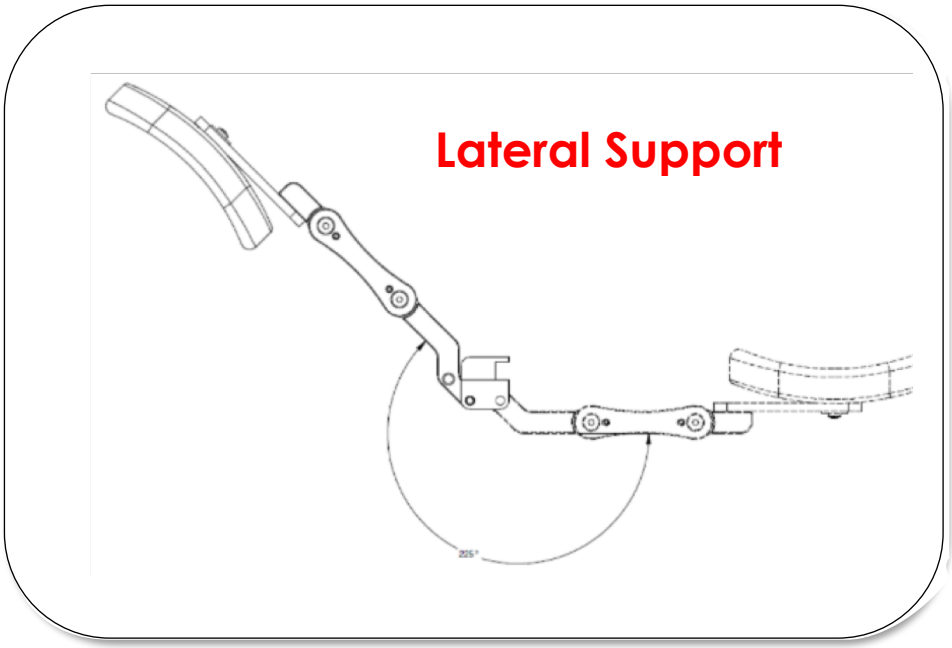
Some days you just can't seem to get out of your own way.

It doesn't take much.

A tenth of and inch here, a few degrees there.

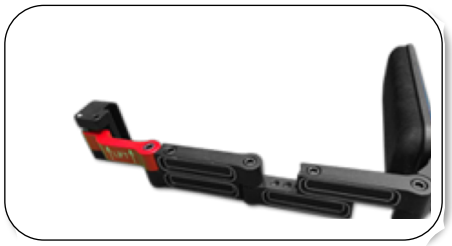
It can make the difference between client transfer and therapist access being easy or cumbersome and time consuming.

That's why Gel Ovations / Falcon has introduced its new line of Full Clearance hardware. Whether it's a lateral support



an elbow stop

or a Thoracic stabilizer.



Full Clearance is your assurance that the hardware will move completely out of your way so you can take care of the client with a minimum of complexity and effort.

Which is really good on those days when getting things out of the way seems particularly problematic.

Test them for yourself. It's going to be love at first use.
