

## Medicare goes on a diet

As our world changes, we are seeing more Captain Seats in lieu of rehab seating yet there is need for additional support. To solve this problem we have engineered the world's best hardware to fit on the captain's chair. We think we have everything covered, but if you think of anything else, please let us know. Our best ideas come from you.

- Lateral supports
- Forehead support
- Headrest
- Stump support
- Center mount swing-away leg support
- Knee adductors
- Swing away knee support
